

YOU'LL LOVE THE WAY THEY WORK FOR YOU

Custom Character Worksheet

The first three steps in creating an animatronic character are to define the look of the character, define the types of movements that the character is required to perform, and outline what the character is expected to do.

Answering the following questions will help us to further understand your application.

- **Define the Character:**

- What will this character be? (person/animal/fruit etc) _____
- What will this character look like? (realistic/cartoon/puppet like etc) _____
- What is the colour of this character? _____
- Will the character be male ___ or female? ___
- You have artwork that you wish to model it from? Y ___/N ___
- Will this character be sitting or standing _____
- Other comments _____
